Subject: 15-HCAA-01553 – Clear Span Bridge Installation and Culvert Removal, Post River, Coral Harbour, NU

The Fisheries Protection Program (the Program) of Fisheries and Oceans Canada received the NWB's request regarding the Coral Harbour Airport Community Washout Rehabilitation Project which has been reviewed under the Fisheries Act and the Species at Risk Act.

Based on the information provided, the proposal has been identified as a project where a *Fisheries Act* authorization is not required given that serious harm to fish can be avoided by following standard measures, and a Permit under the *Species at Risk Act* is not required since there are no Species at Risk near the project site. Proposals in this category are not considered to need an authorization from the Program under the *Fisheries Act* in order to proceed. In order to comply with the Fisheries Act, it is recommended that the proponent follow our guidance tools which can be found at the following website (<http://www.dfo-mpo.gc.ca/pnw-ppe/measures-mesures/index-eng.html>). It remains the proponents responsibility to meet the other requirements of federal, provincial and municipal agencies.

Should the plans change or if the proponent has omitted some information in the proposal such that the proposal meets the criteria for a site specific review, as described on our website (<http://www.dfo-mpo.gc.ca/pnw-ppe/index-eng.html>), the proponent should complete and submit the request for review form that is also available on the website.

Yours sincerely,

Gary Cooper

A/Team Leader, Triage and Planning

Fisheries and Oceans Canada

Fisheries and Oceans Canada has changed the way new project proposals (referrals), reports of potential Fisheries Act

violations (occurrences) and information requests are managed in Central and Arctic Region (Alberta, Saskatchewan, Manitoba, Ontario, Nunavut and the Northwest Territories). Please be advised that general information regarding the management of impacts to fish and fish habitat and self-assessment tools (e.g. Measures to Avoid Harm) that enable you to determine Fisheries Act requirements are available at DFO's "Projects Near Water" website at www.dfo-mpo.gc.ca/pnw-ppe/index-eng.html. For all occurrence reports, or project proposals where you have determined, following self-assessment, that you cannot avoid impacts to fish and fish habitat, please submit to fisheriesprotection@dfo-mpo.gc.ca. For general inquiries call 1 855 852-8320.

Subject: 160212 8BW-RWR---- Distribution Review - GN-CGS Coral Harbour Airport Community Washout Rehabilitation Project - Kivalliq Region

NOTICE TO ALL PARTIES:

DEADLINE FOR COMMENTS IS ON MARCH 12, 2016

Dear Mr. Hoos:

The attached provides notice that, on December 10, 2015, a new application for a Type "B" water license for water use and/or waste disposal associated with activities in the Kivalliq region of Nunavut was filed by GN-CGS. By way of this correspondence, the Board invites parties to provide the NWB with their comments with respect to the application as outlined below. The application consists of the following documents:

- Information on Potential Application
- Information on NIRB Exemption
- Information on NPC Exemption
- Tetrattech Authorization Letter
- Information on Submission of Application
- Information on Submission of Water Use
- Application for New Water Licence
- Completed NWB M1 Water Works SIG
- Cover Email Coral Harbour Airport Community Road Washout Rehabilitation Project
- Part 1 EBA Road Wash Out Report – Revision 1 2013
- Part 1 of TT EBA Feasibility Report Jan 2015
- Part 2 of EBA Road Wash Out Report – Revision 1
- Part 2 of TT EBA Feasibility Report Jan 2015
- Part 3 of EBA Road Washout Report – Revision 1 2013
- Part 3 of TT EBA Feasibility Report Jan 2015 IFU

- Part 4 of EBA Road Washout Report – Revision 1 2013
- Part 4 of TT EBA Feasibility Report Jan 2015 IFU
- Part 5 of EBA Road Washout Report – Revision 1 2013
- Part 6 of EBA Road Washout Report – Revision 1 2013
- Part 7 of EBA Road Washout Report – Revision 1 2013
- Supplementary Information Report Coral Harbour IFU
- TT EBA Design Option Report Final Nov 2015 Part 1
- TT EBA Design Option Report Final Nov 2015 Part 2
- Non-Technical Summary
- CGS Non-Technical Summary (English)
- CGS 2015 Non-Technical Summary (English)
- Additional Supporting documents for Coral Harbour Airport
- CEMP Coral Harbour IFU
- Coral Harbour Design Drawing Package
- Supplementary Information Report Coral Harbour IFU

The application can be obtained from our ftp site at the following link:

<ftp://ftp.nwb-oen.ca/1%20PRUC%20PUBLIC%20REGISTRY/8%20MISCELLANEOUS/8B/8BW%20-%20Watercourse/8BW-RWR----%20CGS/>

As noted in the NWB's earlier correspondence acknowledging receipt of this application, under the Nunavut Land Claims Agreement (NLCA), Article 11, Section 11.5.9 and s. 76 (1) of Nunavut Planning and Project Assessment Act (NuPPAA), the proponent of a project proposal governed by the NLCA and NuPPAA that requires a water licence is required to submit a project proposal document (which may include the water licence application) directly to the Nunavut Planning Commission (NPC or Commission). The NPC then reviews the project proposal and makes a determination regarding the applicable land use planning requirements and/or provides direction regarding whether the project proposal is subject to screening by the Nunavut Impact Review Board (NIRB). Under Articles 11, 12 and 13 of the NLCA, NuPPAA and Part 3 of the Nunavut Waters and Nunavut Surface Rights Tribunal Act (NWNSTRTA), until the project proposal has concluded the applicable land use planning and assessment process required by the NPC and the NIRB, the NWB cannot issue a water licence.

On this basis, the NWB, while previously acknowledging the receipt of the application, waited for the Commission's determination and recommendations before proceeding to the next steps in the NWB's processing of the application. Please be advised that on September 28, 2015 the NWB received the required determinations and recommendations from the Commission and on September 28, 2015 received the NIRB's determination in respect of the project proposal associated with the water licence application.

Now that the application has concluded the pre-licensing steps required under the NLCA, NuPPAA and the NWNSTRTA, the NWB is now proceeding to the next steps in processing the application, including providing the attached Notice of Application which will be published in due course. In addition, to ensure this application is dealt with in a timely fashion, the NWB has forwarded notice of all documentation received by the NWB in respect of the application to regulators and Council of the Municipality(ies) most affected by the project. The NWB is also inviting interested parties to make representations about the application, including information requests, identifying issues of water user compensation and providing technical review comments directly to the NWB within thirty (30) days from the date of this letter; on or before March 12, 2016.

After the NWB receives and reviews the comments received, the Board may provide additional procedural instructions regarding the next steps in the Board's processing of the application. Please note that throughout the Board's consideration of the application, the NWB retains the right to request additional information and studies, as set out under ss. 48(1)-(3) of the NWNSRTA. If additional information will be requested, the NWB's technical staff will contact the applicant to discuss the Board's request in detail.

If the applicant or parties have any questions regarding this matter, please contact Sean Joseph Sean.Joseph@nwb-oen.ca, the Technical Advisor for the file.

Sincerely,

Robin
