Hi Megan Porter,

I have received an email by Erik Skiby where he stated that our application is not correct yet (see below). The reason for checking off the two statements in block 13 as "N/A" was that I did not really know how to answer both questions. If you can help me, then I can change the application and send it back to you with the corrections.

Thanks a lot und viele liebe Gruesse,

Karsten Piepjoh

Hi Megan,

I am not sure how things are looking administratively, I've just looked at the application and there needs to be a few changes before I can accept it technically.

The main concerns is in block 13 ( signature block) of the application, where the applicant must certify the various statements. there are two statements that have been checked off as N/A, the statements must be checked "yes"" or "no" as they are applicable and must be certified by the applicant. if there are questions regarding the statements that require to be certified, please direct them my way.

A new application can be filled out, or changes can be made to the current application, but I would require initials beside any changes made in the application along with a quick e-mail stating that changes have been made from the previous application on file.

Thanks,

Erik

The Nunavut Water Board Licensing Department acknowledges receipt on February 12, 2014 of your Application For An Approval Without A Licence. Currently the application is being reviewed internally for administrative completeness. You will be notified in due course of any deficiencies prior to forwarding the file to the technical department for review and issue of a one year approval.
