Dear Richard Dwyer and Jean David Laberge,

RE: NPC File # 150617 [Culvert Installation new FOB - Iqaluit]

The following works and activities have been proposed in the above-noted proposal:

1. The Proponent proposes installing erosion and sediment control to support the installation of a new culvert in the ditch close to the Iqaluit airport. The installation is required to give more space for the new FOB to be built. The work is planned to be done in late April 2025 to ensure that no water flow is present during the installation.
2. Associated NPC File No.: 150275
3. Location: Qikiqtani Region; within municipal boundaries of the City of Iqaluit, close to Iqaluit airport.

A complete description of the proposal reviewed by the NPC can be accessed online using the link below.

The Nunavut Planning Commission (NPC) has determined that this proposal falls within the exemption of certain works and activities from the definition of the term “project” under the *Nunavut Planning and Project Assessment Act* (NuPPAA). The NPC only has a statutory mandate to review “projects”. As such, the proposal is exempt from a review by the NPC and screening by the Nunavut Impact Review Board (NIRB).

By way of this letter, the NPC is forwarding the proposal to the regulatory authorities identified by the proponent. Project materials are available at the following address:
<https://lupit.nunavut.ca/portal/registry/registry.aspx?appid=150617>

This decision applies only to the above-noted proposal as submitted. Proponents may not carry out projects and regulatory authorities may not issue licenses, permits and other authorizations in respect of projects if a review by the NPC is required.

If you have any questions, please do not hesitate to contact me at (867) 447-4563.

Sincerely,

Solomon Amuno
Senior Planner,
Nunavut Planning Commission
