Dear Gordon Osinski and Peter Christoffersen.

I understand you are requesting NWB to approve the burning of some types of waste. You may notice that the previous Approval authorizes deposit of sewage only, and no open burning. NWB hopes you will be able to manage the project without the need for open burning, as under any Approval Without a Licence only sewage could be deposited.

In addition, could you please provide the project extent (location coordinates) and the applicant address.

Thank you,
