Dear Ms. Kharatyan, Ms. Ohokannoak and Mr. Sharp:

RE: NPC File # 148435 [Dynamics and Change of the Devon Ice Cap, Nunavut]

The following works and activities have been proposed in the above-noted project proposal:

1. Research: monitoring of elastic deformation of the Earth's crust resulting from changes in the mass of the ice cap over time in Devon Island. This is a renewal and amendment of an ongoing research project.

A complete description of the project proposal reviewed by the NPC can be accessed online using the link below.

The Nunavut Planning Commission (NPC) has completed its review of the above noted project proposal. The activities associated with this proposal were previously reviewed by NPC, and a conformity determination was issued on February 24, 2016 (NPC File# 148217) which still applies. In addition, the activities were previously screened by the Nunavut Impact Review Board (NIRB FILE NO.: 04YN041, 06YN010, 10YN007). The above-noted project proposal is exempt from screening by the NIRB under section 12.4.3 of the Nunavut Agreement as amended because it is for a component or activity that was part of the original proposal and its inclusion is not a significant modification of the project.

& 867-983-4626

By way of this letter, the NPC is forwarding the project proposal to the regulatory authorities identified by the proponent. Project materials, including the applicable conformity requirements, are available at the following address:

http://npc.strata360.com/portal/project-dashboard.php?appid=148435&sessionid=

The regulatory authorities to which this letter is addressed are responsible under the Nunavut Planning and Project Assessment Act (NUPPAA) to implement any of the applicable requirements by incorporating the requirements directly, or otherwise ensuring that they must be met, in the terms and conditions of any authorizations issued.

This conformity determination applies only to the above noted project proposal as submitted. Proponents may not carry out projects and regulatory authorities may not issue licenses, permits and other authorizations in respect of projects if a review by the NPC is required. Regulatory authorities may consult with the NPC to obtain recommendations on their duties to implement the existing land use plans prior to issuing licenses, permits and other authorizations under subsection 69(6) of the NUPPAA.

My office would be pleased to discuss how best to implement the applicable requirements and to review any draft authorizations that regulatory authorities wish to provide for that purpose. If you have any questions, please do not hesitate to contact me at (867) 979-3444.

Sincerely,

Goump Djalogue Senior Planner,

Nunavut Planning Commission
