Re: 148202 / The beginning of an Era: characterizing the depositional environment of Earth's earliest eukaryotic life

Please be advised that the Malcolm Hodgskiss of a proposed project 148202 / The beginning of an Era: characterizing the depositional environment of Earth's earliest eukaryotic life that is to be carried out inside the Nunavut Settlement Area (NSA) has submitted a land use application with the Nunavut Planning Commission (NPC).

The Nunavut Land Claims Agreement (NLCA) requires that the NPC review all applications for project proposals. The NPC is unable to initiate and complete a review of the project proposal until a copy of the application and all associated documents are sent to the NPC.

Please contact;

Brian Aglukark, Director of Planning & Implementation
