Hello

I am writing regarding your application before the Nunavut Water Board for Approval for the Use of Water or Deposit of Waste Without a Licence, for the Project "The beginning of an Era: characterizing the depositional environment of Earth's earliest eukaryotic life"

After a preliminary technical review of the Application, I have found that the following is missing:

A brief description of the undertaking in both English and Inuktitut

The Application will not proceed until the NWB receive the summaries.

Regards
