Hello - this is Matthew Alkire from the University of Washington and I'm distributing pdf copies and translations of the latest report summarizing field work conducted as part of a scientific research project in Nunavut and the Northwest Territories entitled:

Assessing the impact of small, Canadian Arctic river flows to the freshwater budget of the Canadian Archipelago

The reports and additional information is also available on the project website: www.canadianriversproject.org

If you have received this e-mail in error, I apologize for the inconvenience and ask that you please forward it along to those who are most interested or affected by this report. Please also let me know so I can take you off this e-mail list.

If you have any questions, please do not hesitate to contact me via e-mail or phone (206-897-1623).

Thanks!

Hi - my name is Matthew Alkire and I am contacting the board to start the process of renewal for the approval number 8WLC-CAR1415 I received for the approval for the use of waters without a license. We plan to repeat our research activities in July-August 2015 and expand somewhat to include sampling of the estuaries just offshore of the river mouths and I was hoping to get more information about how to start the renewal process (or if I need to submit a new application).

I have field activity reports for our work in 2014 that I can distribute to anyone interested (English & Inuktitut versions attached). Please do not hesitate to contact via e-mail (malkire@apl.washington.edu) or telephone ([206-897-1623](tel:206-897-1623)) regarding the research project or my interest in renewing this approval.

Thank you very much for your time.
