Dear Amos,

Thank you for your message and I would be very happy to do this – so I confirm that I will backhaul any other waste other than sewage to an appropriate facility, which in my case will be in Resolute Bay.

Best regards,

Oz

Hi Gordon,

I would like to mention in your water application that the deposit of sewage is authorized; all other waste will be backhauled to an appropriately approved facility for treatment and disposal. Incineration and open burning are not authorized under approval without a licence and I want to confirm with you that you agree to backhaul any other waste other than sewage.

Just wanted to inform you before I submit your draft approval letter to the board.

Kind regards,

Good day,

I am working on your water application for your project on Devon Island, Nunavut. Can you describe part 3. on the Water Application if it is Crown Land or Inuit owned Land?

Regards,

Amos Kamookak.
