Etienne,

Thank you for today's telephone call about your application 8WLC-DIS1819. As we discussed, your plans this year are operate out of the NASA-Haughton Mars Project Station which has Water Licence 3BC-HMP1218. That licence (attached) covers the type of research you are conducting as well as water use up to 5 m3/day and deposit of waste (sewage and greywater).

Please have the operators of the NASA-Haughton Mars Project Station provide confirmation that they are accounting for your use of water and deposit of waste under their licence (3BC-HMP1218). You might want to remind them to include you in their annual reporting.

Once you have that confirmation (by letter or email), please also provide me with a request (by letter or email) to withdraw your application 8WLC-DIS1819.

Have a great day.
