Hi Richard,

These are two camp sites that are related to the same project. I am taking care of the application along the Jungerson River, and Mollie is taking care of the southern camp area.

I would like to clarify that these applications should be separate. The camp along the Jungerson River is lead and funded by the Canada-Nunavut Geoscience office. Mollie's project is lead and funded by Laurentian University. The CNGO is providing logistical support to Mollie's activities.

If you need clarification please let me know.

Thank you,

-Lorraine

Good morning Mollie and Lorraine,

we have two applications with 2 sets of coordinates they're attached, these are both for the same project?

Thanks,

Richard

Dear Ida Porter,

I am contacting you in regards to a Nunavut Water Board application for a geologic field work project. I've attached my application for use of water without a license and a cover letter in Inuktitut and English.

Please feel free to contact me if you have any questions or concerns. I look forward to hearing from you in the near future.

Sincerely,

Mollie Patzke
