Subject: Approval No. 8WLC-GBI1718 – Approval for the Use of Waters and a deposit of Waste Without a Licence for the Community-Based Monitoring of Sea Ice and Eider Duck Populations around the Belcher Islands, Nunavut

Dear Mr. Gilchrist,

Please find attached Approval No. **8WLC-GBI1718**, issued to National Wildlife Research Centre by the Nunavut Water Board (NWB or Board), pursuant to its authority under Article 13 of the *Agreement between the Inuit of the Nunavut Settlement Area and Her Majesty the Queen in Right of Canada (the Nunavut Land Claims Agreement or NLCA)*. The Approval has been authorized for a period of one (1) year after the day on which the Board approves the Application and includes conditions related to the use of Waters and Deposit of Waste, which are an integral part of this Approval required for this type of authorization under the *Nunavut Waters Regulations* (NWR).

This approval and the conditions contained therein permit the carrying out of activities involving the use of Waters and Deposit of Waste with respect to an Application for approval. Any variation from these activities may result in a violation of this Approval and contravention of the NLCA, the *Nunavut Waters and Nunavut Surface Rights Tribunal Act* (NWNSRTA) or the NWR. The NWB reminds the Applicant of the obligations with respect to reclamation and reporting, which will arise as this Approval approaches its expiry.

If the activities authorized under the Approval are expected to continue longer than the term authorized, it is recommended that the Authorized Entity, upon receipt of confirmation¹ from the Nunavut Planning Commission (NPC) and the Nunavut Impact Review Board (NIRB) that relevant requirements have been satisfied, apply for a new Approval at least thirty (30) days prior

¹Nunavut Planning Commission (NPC) and the Nunavut Impact Review Board (NIRB) Requirements under the Nunavut Planning and Project Assessment Act (NuPPAA).

to the expiry of the current authorization. Note that if the existing approval expires before the NWB issues a new Approval, the use of Waters and deposit of Waste must cease as required by the Nunavut Land Claims Agreement (NLCA) and the NWNSRTA.

Please note that, as identified in the Application for the Approval for Use of Waters or Deposit of Waste Without A Licence, the Authorized Entity has held, or currently holds Type “B” Water Licence No. 3BC-GBI1114 that applied to the carrying out of activities involving the use of Waters or the deposit of Waste now included under this approval without a licence, No. 8WLC-GBI1718. The Board reminds the Authorized Entity that as stated in s. 46 of the NWNSRTA, the expiry or cancellation of this licence does not relieve the holder from any outstanding obligations imposed under the licence. If there are any obligations under Type “B” Water Licence No. 3BC-GBI1114 that remain outstanding (such as obligations in relation to payment of water fees, filing of plans for approval and restoration, etc.) the Authorized Entity remains responsible for fulfilling these obligations.

If the Authorized Entity contemplates changes to its undertaking involving a change in scope or increased activity, a water licence may be required. It is the Authorized Entity’s responsibility to apply to the NWB for a water licence in accordance with the timelines set out for licences.

This Approval has been posted to the NWB’s Public Registry and FTP site, accessible from the following link:

DECISION

The NWB received confirmation from the Nunavut Planning Commission (NPC)² that the project proposal is outside the area of an applicable regional land use plan. The NPC confirmed that the activities associated with this proposal were previously reviewed by NPC on December 13, 2013 and on November 28, 2014. In addition, the works and activities listed above were previously screened by the Nunavut Impact Review Board (NIRB FILE No. 10YN058) and therefore, because the above-noted project proposal is a component of the original proposal that was screened by the NIRB, this project is exempt from screening by the NIRB under section 12.4.3 of the *Nunavut Lands Claim Agreement* (NLCA) as amended. The NWB is satisfied that the requirements of Articles 11 and 12 of the *Nunavut Lands Claim Agreement* (NLCA) and sections 3, 4 and/or 5 of the *Nunavut Waters Regulations* (NWR or *Regulations*) have been adequately addressed. In addition, through the provision of a signed Application for an Approval Without a Licence, the Applicant has agreed to adhere to sections 4(3), 5(4), and 6(1) of the *Regulations* and to comply with the associated requirements, the NWB determined that:

Approval Number 8WLC-GBI1718 be issued, subject to the conditions of Schedule 1 contained therein (Motion # 2016-WL-024).
