**Subject: 8WLC-GBI2526 – Approval for the Use of Waters and Deposit of Waste Without a Licence**

---

Dear Dr Heath:

Please find attached Approval No: 8WLC-GBI2526 issued to Arctic Eider Society by the Nunavut Water Board (NWB or Board) pursuant to its authority under Article 13 of the *Agreement between the Inuit of the Nunavut Settlement Area and Her Majesty the Queen in Right of Canada* (Nunavut Agreement). The Approval has been authorized for a period of one (1) year after the day on which the Board approves the Application and includes conditions related to the use of Waters and deposit of Waste, which are an integral part of this Approval required for this type of authorization under the *Nunavut Waters Regulations* (NWR or Regulations).

This approval and the conditions contained therein permit the carrying out of activities involving the use of Waters and deposit of Waste with respect to the Application for approval. Any variation from these activities may result in a violation of this Approval and contravention of the Nunavut Agreement, the *Nunavut Waters and Nunavut Surface Rights Tribunal Act* (NWNSRTA) or the NWR. The NWB would like to remind the Applicant of the obligations with respect to the reclamation and reporting requirements of the Approval, which will arise as this Approval approaches its expiry.

If the activities authorized under the Approval are expected to continue longer than the term authorized, it is recommended that the Authorized Entity, upon receipt of confirmation<sup>1</sup> from the Nunavut Planning Commission (NPC) and/or the Nunavut Impact Review Board (NIRB) that relevant requirements have been satisfied, apply for a new Approval at least thirty (30) days prior to the expiry of the current authorization. Note that if the existing Approval expires before the NWB issues a new Approval, the use of Waters and/or deposit of Waste must cease as required by the Nunavut Agreement and the NWNSRTA.

---

<sup>1</sup>NPC and NIRB Requirements under NuPPAA.

If the Applicant contemplates changes to its undertaking involving a change in scope or increased activity, a water licence may be required. It is the Authorized Entity's responsibility to apply to the NWB for a water licence in accordance with the timelines set out for licences.

It should be noted that as identified in the Application for the Approval for use of Waters and deposit of Waste without a licence, the National Wildlife Research Centre has held Type "B" Water Licence No: 3BC-GBI1114 that applied to the carrying out of activities involving the use of Waters or deposit of Waste now included under annual Approvals without a licence. The Board reminds the National Wildlife Research Centre that as stated in s. 46 of the NWNSRTA, the expiry or cancellation of a licence does not relieve the holder from any outstanding obligations imposed under the licence. If there are any obligations under Type "B" Water Licence No: 3BC-GBI1114 that remain outstanding (such as obligations in relation to payment of water fees, filing of plans for approval and restoration, etc.) the National Wildlife Research Centre remains responsible for fulfilling these obligations.

This Approval has been posted to the NWB's Public Registry and FTP site and is accessible from the following link:
