7.	CLASSIFICATION OF UNDERTAKING - Indicate the classification of undertaking by checking one of the following boxes. ☐ Industrial ☐ Mining ☐ Conservation ☐ Municipal ☐ Agricultural ☐ Recreational ☐ Power ☒ Other: Geoscience mapping See Appendix C of the Guide for descriptions of classifications of undertakings.
8.	DESCRIPTION OF UNDERTAKING AND EQUIPMENT USED – Provide a brief description of the undertaking including a description of any equipment that will be used in using water or depositing waste. This research involves bedrock mapping by foot traverse of a 17,500 km² region for which knowledge stems from 1962 in order to significantly upgrade the outdated geoscience framework of this area, and provide relevant data and knowledge to this remote region of Nunavut. Operations will take place from a low-impact, temporary, tent camp to be constructed with material brought in and flown out when completed. Water is required for personal washing and consumption only, and is to be pumped by a gasoline-powered, small, Honda water pump with flexible hose equipped with screen, once daily into a soft rubber containment bladder or plastic pails (utility garbage pails). A shallow greywater pit will be dug by gently setting aside topsoil and lichen (reserve for re-positioning) to access the active layer for filtering of greywater.
9.	SCHEDULE – Applicants are advised that approvals without a licence are issued for a one year term. Proposed Start Date: 05/07/2018 (Day/Month/Year) Proposed Completion Date: 16/08/2018 (Day/Month/Year)
10.	TYPE OF USE OF WATER WITHOUT A LICENCE PROPOSED - Check the box that applies to the type of water use proposed. If none of the water uses listed below applies to the

proposed water use, an application for a water licence will be required. See the NWB's Guide 4 – Completing and Submitting a Water Licence Application for a New Licence.

- ☐ For an Industrial undertaking, for an activity related to quarrying and gravel washing, and for any deposit of waste that is not deposited to surface water and that results from quarrying or gravel washing above the ordinary high water mark.
- ☐ For a Mining undertaking, for an activity related to exploratory work, any deposit of sewage to a sump.
- ☐ For a Power undertaking, any deposit of sewage to a sump.
- ☐ For an Agricultural undertaking, any deposit of sewage to a sump.
- ☐ For a Conservation undertaking, any deposit of sewage to a sump.
