TEAM MEMBERS: D. Skipton

AFFILIATION: Geological Survey of Canada

TITLE: GEM-2 North Baffin Bedrock Mapping

OBJECTIVES OF RESEARCH:

The proposed project is a continuation of the successful 2017 geological bedrock mapping field campaign, which covered NTS map sheets 37G and 38B near Pond Inlet and the Mary River mine. The 2018 campaign would cover all of NTS map sheets (scale 1:250 000) 37F and 37E, in the vicinity of Steensby Inlet and Barnes Ice Cap, northern Baffin Island, Nunavut. Mapping would be conducted out of a temporary camp located along the Isortoq River from July 9 to August 19 2018 (about 6 weeks), and followed by analytical and map production work in Ottawa in 2018-2019.

TERMS & CONDITIONS:

The holder of the licence will be bound by the terms and conditions of the Nunavut Impact Review Board Screening Decision Report and the Department of Culture & Heritage archaeological sites terms and conditions. These terms and conditions will form part of this licence.

DATA COLLECTION IN NU:

DATES: July 03, 2018-August 31, 2018

LOCATION: Steensby Inlet, Barnes Ice Cap, Pond Inlet Area

Scientific Research License 02 025 18R-M expires on December 31, 2018

Issued at Iqaluit, NU on February 27, 2018
