Dear Phyllis,

I have been away at location for which there was no e-mail access. As indicated in a previous e-mail, the project work for this summer has been cancelled so no approval without a licence is required. Also, as indicated earlier, I plan to continue work at Cape Tanfield next year and it would be a full field season. In that instance, if regulations permit, it may be best to deal the the B licence at that time. A report on the 2011 season is forthcoming.

Please provide a response to my email above. Do you plan on moving forward with the cancellation of the B Licence and obtaining an approval without a licence for the project?
Thanks.

PS the annual report is still required for the type B file. If no activity took place on the project in 2011 please provide a letter indicating same.

We still require an annual report for 2011 for file 3BC-HAP1111 when you were out on the project. Can that be provided so we can move forward to cancel/close this file and indication from AANDC that no issues are outstanding?

You indicate above that the field season for this year is cancelled. Does that mean that you wish to now cancel the approval without a licence that was just issued?

Please advise.

Regards,

Thank you for your message, Phyllis. Regrettably, the field season for this summer has been cancelled. I hope to return to the cape to undertake a full field season in 2015.

Regards,

Pat Sutherland

Hi Patricia, under the terms and conditions of the licence for 3BC-HAP1111 there is a requirement to submit an annual report. Our office has no record of receiving one. If there was no activity on site then a basic letter/memo advising same would suffice. Please reference Part B, Item 2 of the attached.

Regards,

Hello Phyllis,

You did not mention this earlier and I am not clear on what you are requesting.

Thank you,

Pat

The Nunavut Water Board acknowledges receipt on June 26, 2014 of an application to cancel the above water licence. In order to move forward with this request please provide a copy of the 2011 annual report or NRI summary report for our records.

Also required is the \$30.00 admin fee, which I understand is in the mail.

You will be notified of any other technical deficiencies once Karen has completed his preliminary technical review.

Regards,
