TITLE: High Arctic Large Igneous Province Geological Study, Axel Heiberg & Ellesmere Island

OBJECTIVES OF RESEARCH:

The Geological Survey of Canada through its Geo-Mapping for Energy and Minerals Program is planning a research project, the High Arctic Large Igneous Province Activity (HALIP) for the 2015 and 2016 summer field seasons. Most of the work would take place on Axel Heiberg Island and some on the northern end of Ellesmere Island in 2015. The information and data created through this project will be publically available to communities,governments, industry professionals and to interested individuals .

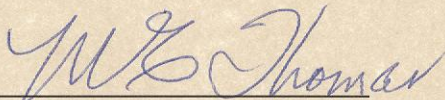

TERMS & CONDITIONS:

The holder of the licence will be bound by the terms and conditions of the Nunavut Impact Review Board Screening Decision Report and the Department of Culture & Heritage archaeological sites terms and conditions. These terms and conditions will form part of this licence.

DATA COLLECTION IN NU:

DATES: June 30, 2015-August 04, 2016
LOCATION: Axel Heiberg Island, Ellesmere Island

Scientific Research License 02 029 15N-M expires on December 31, 2015
Issued at Iqaluit, NU on May 01, 2015
