Good Afternoon Ladies,

Can you please keep this email on file for the following two projects:

8WLC-HSR1516
8WLC-FOX1516

This is an email from the applicant confirming to me that the amount of Grey water will not be 0.1 cubic meter per day (as indicated in their current application) but actually 0.05 cubic meter.

Thanks,

Subject: NWB application for Foxe Basin and Hudson Strait

To: Cynthia Ene <cynthia.ene@nwb-oen.ca>

Hi Cynthia – I just wanted to make a correction to our two water board applications (Cabin Construction in 1. Foxe Basin and 2. Hudson Strait):

The volume of water being disposed of (sewage/grey water) at both site will not exceed the amount consumed (0.05m³/day), as we only will consume water for drinking, cooking and washing dishes, and only dispose of water through those activities.

I hope this helps. Please don't hesitate to contact me if you have any further questions.

Thanks for all your help, and have a great day!

Christie
