Dear Ms. Ohokannoak, Mr. Cote, Mr. Kharatyan, Dr. Copland:

RE: NPC File # 148252 Ice Dynamics and Cryospheric Changes in Northern Canada

The Nunavut Planning Commission (NPC) has completed its review of the above noted project proposal. The activities associated with this proposal were previously reviewed by NPC, and a conformity determination was issued on February 4, 2008, which still applies. In addition, the activities were previously screened by the Nunavut Impact Review Board (NIRB FILE NO.: 08YN010), however the current project proposal includes significant modifications to the location of the activities. The locations described in the project proposal include activities to be conducted in the 2016 season, as well as possible locations for future work.

As a result of these modifications, the NPC is forwarding the project proposal with this determination to the Nunavut Impact Review Board (NIRB) for screening. Project materials are available at the following address:

<http://npc.strata360.com/portal/project-dashboard.php?appid=148252&sessionid=>

This decision applies only to the above noted project proposal as submitted. If there is a significant modification to the project proposal, the proponent is required to re-submit the modified project proposal to the NPC. For reference, a significant modification may include:
