The Approval has been authorized for a period of one (1) year after the day on which the Board approves the Application or at the Effect Date and includes conditions related to the use of Waters and deposit of Waste, which are an integral part of this Approval required for this type of authorization under the *Nunavut Waters Regulations (NWR or Regulations)*.

This Approval and the conditions contained therein permit the carrying out of activities involving the use of Waters and deposit of Waste with respect to the Application for approval. Any variation from these activities may result in a violation of this Approval and contravention of the *Nunavut Agreement*, the *Nunavut Waters and Nunavut Surface Rights Tribunal Act (NWNSRTA or Act)* or the *NWR*. The NWB would like to remind the Applicant of the obligations with respect to the reclamation and reporting requirements of the Approval, which will arise as this Approval approaches its expiry.

relevant requirements have been satisfied, apply for a new Approval at least thirty (30) days prior to the expiry of the current authorization. Note that if the existing Approval expires before the NWB issues a new Approval, the use of Waters and/or deposit of Waste must cease as required by the *Nunavut Agreement* and the *NWNSRTA*.

If the Applicant contemplates changes to its undertaking involving a change in scope or increased activity, a water licence may be required. It is the Applicant's responsibility to apply to the NWB for a water licence in accordance with the timelines set out for licences.
