Good afternoon Terry,

Can you confirm with Shannon regarding a possible submission of an application package? We have this Approval No: **8WLC-LHA2324** which is due to expire on June 25, 2024. Based on the information you provided regarding the Nunavut Planning Commission file no. 150130; this is associated and is mentioned in the letter that we received (attached) from NPC file no. 150428; dated May 29, 2024.

Also attached for your reference; application form for an approval without a licence and a guide in case you require it.

The Nunavut Water Board has no record of receiving an application package for the 2024 season. Since we have received the NPC's determination, which states that your project does not require NIRB screening. The NWB would require submission of the following for this application to be deemed administratively complete:

- Completed and signed Application form
- Project summary in English and Inuktitut
- Project Map. and;
- Application fee

Richard for your information, just confirming and if you could please follow-up to confirm if there was any submission of an application package in your emails?

Regards,

Robert Hunter
Licensing Administrator
