Hello David,

We have received the project assessments submitted to CIRNAC from 2016-2019. However, the information contained in there is very minimal and does not provide any details about water use, waste disposal and activities carried out in a particular year. We understand that no work was done in 2020 and your email is reponse is sufficient for that.

We will appreciate it if you could give us some more details for the years 2016 to 2019 including a brief summary of water use, waste disposal activities, site visits and works completed. I have attached a NWB Annual Reporting form with this email.

We hope to receive this information at your earliest convenience.

Regards,

Ali
