Subject: Resubmitted Application for Water Licence – Axel Heiberg Research Project – McGill University

Dear Mr. Pollard:

The Nunavut Water Board (NWB or Board) acknowledges receipt of the above application on January 22, 2010 for a Type B water licence for Arctic Research within the Qikiqtani Region. In reviewing this application, the NWB has determined that the file is deficient in relation to the following:

- a) Thirty dollar (\$30.00) water use fee is to be provided, either by cheque made payable to Receiver General for Canada or by Visa (the administration fee was provided with the initial application and is not required again).
- b) Please provide the NWB with a copy of the NIRB screening decision which would have been provided to you previously;
- c) Submission of a Spill Contingency Plan. Please refer to comments received from INAC and EC during the previous review of your application to assist you in providing the necessary plan (copies attached).

Your file will go out for the 30 day review once the Spill Plan has been received.

If you require further information on the application process, please contact the Manager of Licensing at [licensing@nunavutwaterboard.org](mailto:licensing@nunavutwaterboard.org).

Sincerely,

*Original signed by:*

Phyllis Beaulieu
