Good afternoon,

Our records show that project# 148330 have and end date of July 31, 2018.

If your water use authorization is going to have a longer end date than July 31, then you are firstly required to submit an application for renewal to NPC through our online portal at www.nunavut.ca.

In addition, in a case of an amendment or modification to your previously assessed project activities, you also have to submit an amendment application, regardless of the end date.

I hope this clarifies the process for you. Do not hesitate to contact me should you have any question.

Best regards,

Goup

Subject: Re: Application for approval without a licence

Dear Mr. Djalogue,

The application I submitted to the NWB for approval for the use of waters and/or deposit of waste without a licence is associated with NPC File #148330, "Impacts of Climate Change on Permafrost, Ice, and Hydrology in the Canadian High Arctic". Please let me know if you have any questions.

Sincerely,

Chris

Good afternoon,

All project proposals must first go through the Nunavut Planning Commission as per *Nunavut Planning and Project Assessment Act* (NuPPAA), the proponent of a project governed by NuPPAA is also required to submit a project proposal document directly to the Nunavut Planning Commission (NPC or Commission) for the NPC's determination regarding the applicable land use planning requirements and/or directions regarding whether the project is subject to screening by the Nunavut Impact Review Board. In particular, please note that as established under Articles 11, 12 and 13 of the Nunavut Agreement, NuPPAA and Part 3 of the *Nunavut Waters and Nunavut Surface Rights Tribunal Act*, until the project has completed the applicable land use planning and assessment process required by the NPC and the NIRB, the NWB cannot issue a water licence/approval.

I've copied Goump Djalogue with the NPC who'll be able to assist you with their process.

Regards,

Richard
