Good day Mr. Hadlari,

I have attached an application form and a guide to assist you in completing this form for an application for an approval for the use of waters and deposit of waste without a licence. This would only apply if the amount of freshwater use is 50m3 or less per day and the only deposit of waste is greywater and sewage. I would first recommend you contact the Nunavut Planning Commission for their determination. Once confirmation is received from the NPC regarding your project proposal the Nunavut Water Board's process of the application can begin.

NPC contact info: gdjalogue@nunavut.ca

Also a few requirements for the application package to be considered administratively complete are attached below:

- Completed/signed Application Form.
- Project description in English, Inuktitut and/or Inuinnaqtun.
- Project Map.
- \$30 application fee.

If you have any questions or concerns please don't hesitate to contact me.

Regards,

Robert Hunter
Licensing Administrator
