Thank you, Major Prentice, for your application.

In terms of additional information, we would require the following in order to process your application:

1. A copy of the NPC decision for the undertaking;
2. A copy of the NIRB screening decision, if required, for the undertaking; and
3. A map showing the location of the undertaking.

The above-mentioned information should be sent, at your earliest convenience, to the Licensing Department by email to [licensing@nwb-oen.ca](mailto:licensing@nwb-oen.ca).

Please note that I have forwarded your application to the Licensing Department so that it has on file an official copy of your application.

Regards,  
Sean Joseph  
Senior Technical Advisor, NWB

Good afternoon,

I have been given your name by Capt Andrew Ngo whom I believe submitted an application for Op NUNALUVIT through your office.

I am the lead planner for another military exercise taking place in March (NOREX 17). The NIRB released their Screening Decision Report yesterday so I believe this is now the appropriate time for our NWB submission which is attached. This is the first time I've completed this document so please let me know if anything requires amendment.

One point to note, we will be caching 2,000L of fuel at Eleanor Lake to support the primary camp at that location. The NIRB decision under "Views of the Board/Issue 2/Board Views" states "The Proponent would also require a water licence from the NWB for fuel storage." I didn't see anywhere on the form to list

a fuel cache but wanted to make certain you were aware. The 31 metre distance from a water course/body is acknowledged.

I look forward to hearing from you.

Gordon
