Hello,

Please find attached an application for Approval without a Licence for 2022. There are no changes to the project, and I have included a description in both English and Inuktitut in case there are any questions. At the moment, it is unclear if our project will be able to go ahead in 2022, but we would like to make sure our permit is valid.

We did not conduct field work in 2021, so I was hoping this email would suffice as a NULL report.

If there are any other requirements, please let me know.

Regards,

Marc
