Hi Tamara,

Thanks for the update, that fine to provided an update to plans with review of the Annual Reports

I just need quick confirmation with regards to the Authorization with out a license on a couple of things

1. That camp and associated waste will be removed from site
2. Any fuel that may be used will be removed from site, including Hydro contaminated that results from spill will be removed from site and treated accordingly

Your Application and project description did not really cover or address/cover the above points.

Thanks,

Erik
