Name o	f the Water Management Area in which the Undertaking is located. (Please see Appendix D of le):			
	23. Prince Charles Island Watershed			
	CLASSIFICATION OF UNDERTAKING - Indicate the classification of undertaking by checking one of the following boxes.			
	☐ Industrial ☐ Agricultural			
	Mining Recreational			
į	☑ Conservation ☐ Power			
	☐ Municipal ☐ Other: (describe)			
	See Appendix C of the Guide for descriptions of classifications of undertakings.			
1	DESCRIPTION OF UNDERTAKING AND EQUIPMENT USED – Provide a brief description of the undertaking including a description of any equipment that will be used in using water or depositing waste.			
which w	earch camp is located on a gravel ridge and will be accessed via twin otter aircraft with tundra tires ill land on a nearby gravel esker. The crew (up to 5 people) will use an ATV to shuttle gear to the hich consists of 1 cabin and 2-3 tents. Small gas generators will power the laptops and VHF radios harge any batteries required.			
collecte	se is generally restricted to personal/camping use – cooking, drinking and washing. Water will be d from a nearby stream and hauled to camp using buckets. Grey water from washing dishes and will be disposed of in gravel sumps >100m from flowing water and buried at the end of the field			
8.	SCHEDULE – Applicants are advised that approvals without a licence are issued for a one year term.			
	Proposed Start Date:June 2019 Proposed Completion Date:August 2019 (Month/Year) (Month/Year)			
9.	TYPE OF USE OF WATER WITHOUT A LICENCE PROPOSED - Check the box that applies to the type of water use proposed. If none of the water uses listed below applies to the proposed water use, an application for a water licence will be required. See the NWB's <u>Guide 4</u> — <u>Completing and Submitting a Water Licence Application for a New Licence</u> .			
	For an undertaking other than a Power undertaking and for a use of water related to the construction of a structure across a watercourse that is less than 5 metres wide at the ordinary high water mark at the point of construction.			
1 1				

For an undertaking other than a Power undertaking and for a use of water related to the training of an intermittent watercourse. For an undertaking other than a Power undertaking and for a use of water related to the training of a watercourse that involves the infilling of the watercourse, if the watercourse has no inflow or outflow and a surface area of less than 0.5 hectares. For an undertaking other than a Power undertaking and for a use of water related to the training of a watercourse that involves removal or placement of less than 100 m³ of material. For an undertaking other than a Power undertaking and for a use of water related to the construction of a temporary structure in a watercourse for the purpose of flood control. For an undertaking other than a Power undertaking and for any use of water related to the storage of 2,500 m³ or less. For an undertaking other than a Power undertaking and for any use of water less than 50 m³ per day. 10. QUANTITY AND QUALITY OF WATER INVOLVED - For each type of water use indicated in Block 9, provide the source of water, the estimated quantity to be used in cubic metres per day, and the periods during which water will be extracted. Type of Water Use Indicated in Block Water use for Owner than 0.05 Water to be collected using hand-carried buckets from a nearby stream 11. TYPE OF DEPOSIT OF WASTE PROPOSED - Check the box that applies to the type of deposit of waste, an application for a water licence will be required. See the NWB's Guide 4 — Completing and Submitting a Water Licence Application for a New Licence. For an Industrial undertaking, for an activity related to hydrostatic testing or cleaning of storage tanks and pipelines, and for any deposit of waste resulting from hydrostatic testing or cleaning of unused storage tanks or pipelines. For an Industrial undertaking, for an activity related to guarrying and gravel washing, and for any deposit of waste that is not deposited to surface water and that results from quarrying or gravel washing above the				_			
training of a watercourse that involves the infilling of the watercourse, if the watercourse has no inflow or outflow and a surface area of less than 0.5 hectares.
