Re: Application for use of Water and disposal of waste without a license.

Please find attached our completed and signed application as well as a letter of authorization for Mr. Boyd Warner.

Our company (Bathurst Inlet Developments (1984) Ltd) has a camp located at Pellatt Lake, NU.

The camp/buildings has been in place for over 15 yrs. We have a Federal land lease and in the past were not required to have a water license to operate. We did however have regular inspections and the camp was always found to run in accordance with Federal Inspectors requirements.

Regulations have changed and as of 2013 we do require a water license to operate. This spring and perhaps this fall a junior exploration company has requested using the camp for a period of up to a month at a time. The Max people that will be in camp is 16 persons.

We have a tourism license and a land lease 76 F/4-2-2 for the camp.

We are requesting the authorization as the camp will not be using much water or generating much waste.

Please let me know if you have any questions or concerns.

Sincerely,

Boyd Warner

President

Bathurst Inlet Developments (1984) Ltd
