Hi Robin;

My company had a license (see attached) that expired on July 29, 2016.

We would like to know what we would need to do to get this renewed or do we have to apply on another license?

We have clients that would like to stay at the camp starting around April 01 2017. It would be for a small geophysical program. We might have some summer and fall activity as well.

Thank you and I look forward to hearing from you.
