Good morning Karen and Robin;

FYI I have submitted a application to NPC and it has been acknowledged as received.

I now submit to you basically the same application that we did last year for your consideration. I realize that you have to wait to hear from NPC but I am going into the bush and would like you to have this so if they respond that the application can go forward it is in your hands.

The scope of the activity is the same as previously applied. A company is seeking to use our camp as a base for Geophysical work this spring but all their work is in the NWT. The camp is very close to the border.

We also may have some tourism use this fall.

Based on your comments we will be applying for a full water license (if that is what is recommended) to avoid this confusion of applying yearly for a approval without a license. We would do this prior to the approval without a license expiring (if we get approval).

Thank you for your time and consideration.

Boyd Warner
