Water for domestic purposes at camp

Berg, Ashley Rene Manning <aberg@vols.utk.edu>

Hi Ida,

I have attached the application to this email. I have also included a jpeg of a topographic map of Pond Inlet. The map is large, but I have outlined the campsite and sampling sites for my project on here since I could not find the names of the small lakes and streams we will be near.

There are 4 people camping in tents. We will not be depositing sewage into slumps. All water usage is for cooking in camp and collecting water for filtration.

Please let me know if you need any other information, and thank you for all of your help.
-Ashley Berg
