Hi Ida,

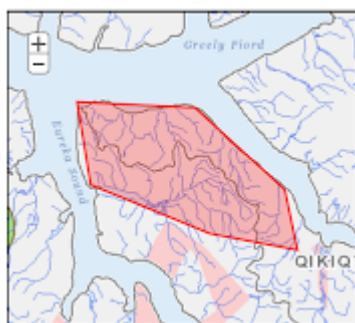

Thanks for taking the time to speak with me on the phone just now. Attached is our project map as submitted to the NPC.

A note, per our phone call: our project requires we follow a pack of Arctic wolves. Field camp will be established near an Arctic wolf den; however, we won't know the exact location until we do a scout for wolf dens in May. This is why I've included two watersheds in our application (section 5 - Nansen and Eureka Sounds Watershed, Greely Fiord Watershed), as our field camp may be located in either one or the other. We will only need access to water in one water shed; I included both because, at this stage, our field camp may be established in either one.

Please feel free to reach out to me with any questions.

Best,
Jeremy
