RE : Approval for the Use of Waters or Deposit of Waste without a Licence
Sampling and collection of containers of 20 liter each for testing and
merchandizing
Grise Fjord

Attached is a request to obtain an approval for the Use of Waters to sample and fill glass container of 20 liters each from a creek in Grise Fjord for testing and merchandizing. Also attached is a letter authorizing Dr. Philippe Simon to act as the contact representative on behalf of Pure Blue Spirit Inc. on the matter of this request for approval.

An application to the Nunavut Planning Commission was filled on July 31, 2019 (#149203). As per the letter attached, the project is exempt from a conformity determination and can proceed with licensing under the Nunavut Water Board. Finally, a map of where water from the creek in Grise Fjord is planned to be extracted is included.

Should you have any question, please communicate with my contact representative.

Sincerely,

Harry Flaherty, President
Pure Blue Spirit Inc.
