**RE: Water Licence Application 8WLF-NBC**

Dear Mr. Livingstone:

In response to your request of 10 December 2015 in association with your Water Licence application number 8WLF-NBC, the City of Iqaluit will accept the disposal of waste by-products of the proposed beer brewing operation of the Nunavut Brewing Company Ltd. into the City of Iqaluit sewage collection system and waste water treatment plant.

The City understands that the waste by-products from the beer brewing process are relatively benign (e.g. residual yeast, hops, spent grain etc.), and as such are not anticipated to affect the City treatment system any differently than typical household wastewater.

Please be advised that the City has a water licence renewal application currently underway and therefore, this acceptance is conditional upon the City's successful receipt of a water licence.

If you have any questions please contact Matthew Hamp, Director of Public Works and Engineering at 867-979-5653.

Sincerely,

Muhamud Hassan  
Chief Administrative Officer  
City of Iqaluit

cc: Matthew Hamp, Director of Public Works and Engineering
