Hi Gabrielle,

I just received your application for an approval to use the water without licence for the Wash&Go Project in Iqaluit.

I just want to confirm a few details before continuing with the process.

How will the waste produced from these activities be utilized?

What is your general procedure for that?

Will there be a direct disposal into the environment or the wastewater will be dumped into the City's sewage system? Is there an agreement with the City to accept wastewater produced?

Also, just wanted to remind you that this approval will only allow disposal of sewage without any oil products in it.

If you have a facility in mind where the work will be performed, it will be helpful to attach a few pictures (showing drainage, etc.) of that facility to the file.

By the way, does the Dead Dog Lake have enough water for your use? (I mean approximately) I am not there so, just want to make sure that it will be enough for you for the rest of the season.

Please provide the requested information, so that we can move forward with processing your application.

Let me know if you have any questions.

Thank you,

Sergev Kuflevskiv, MSc., GIT- パーへ dooプア
